OUR WARPED SOCIETY—ABORTION! By Marshall Flowers

In the news recently there have been two accounts of folks being arrested for the mistreatment of dogs. One person was arrested for pouring gasoline on a dog and setting it on fire. In the other case a man was arrested for tossing a dog into traffic causing its death. Thankfully, the dog set on fire survived. Certainly both of these perpetrators of such vicious, unmerciful acts should be punished.

The news media severely condemned, and rightfully so, those who were guilty. Most people were terribly upset, me included, that such heinous crimes were committed. Yet, on the same day that these crimes were committed, there were hundreds of unborn children mutilated and murdered, and not a single word in the news media about these. The two who were guilty of torturing or killing the dogs were given jail sentences, while the doctors who mutilated and killed the unborn babies were praised and paid for their dastardly deed. It is legal in our society to mutilate and kill an unborn child and illegal to torture an animal. This is the warped mindset of our society today.

Abortions are performed by different means. The most prominent method is the suction method. A powerful suction tube, attached to a vacuum aspirator, is inserted in the mother's womb. The baby and the placenta are torn into parts and sucked into a jar. The second most prominent method is the saline method. A long needle is inserted through the mother's abdomen into the baby's sac and a solution of salt is injected into it. The baby breathes in and swallows the salt and is poisoned by it. It takes over an hour to slowly kill the baby by this method. A third method is called "hysterectomy". This method is like a caesarean section, only the phlegm is not sucked from the baby's throat, and the baby is dropped into a bucket or other container and left to die. Another method is called D&C (dilation and curettage). A sharp, loop-shaped, steel knife is inserted into the womb and the baby's body is cut into pieces. Usually a nurse is assigned to reassemble the parts of the baby's body to make sure that all of the body has been removed.

On January 22, 1973, the U.S. Supreme Court, in a decision of 7 to 2, ruled that abortions could be performed on any child in any state at any time during the first three months of pregnancy. The decision handed down was that abortion is solely a decision between a woman and her physician. The truth is, beloved, abortion is murder!!

One can readily see the warped mindset of much of our society today who would condemn and punish those who maimed or killed animals, but excused, permitted, and tolerated, without penalty, those who mutilated and murdered unborn babies. They call it "abortion on demand" which makes it legal for a pregnant woman and her doctor to end the pregnancy by aborting (killing) the unborn child.

The so-called "woman's lib" movement has been one of the strongest efforts to secure abortion on demand. They reason (?) that a woman has the right to privacy of her own body, and since the unborn baby is a part of her body, she has the right to do with it what she pleases. The truth of the matter is that the unborn infant is a completely separate, growing human being and is not just another part of the mother's body. They may call it a "fetus" or an "embryo", but the fact remains that it is a "human being"! It has all of the characteristics that will eventually, if permitted to live, become an adult human being. All of the organs and members of the "fetus" are self contained at

OUR WARPED SOCIETY—ABORTION!

By Marshall Flowers
 CONTINUED

conception. The mother adds none of these to the child af-
 ter conception. When the seed of the woman is fertilized
 by the sperm of the man, a "child" is conceived. It is as
 much a part of the father as it is the mother. The mother
 simply provides, within her body, the necessary nutrients
 and shelter for the baby until it reaches a viable stage
 where it can live outside the mother's womb.

Regardless of what I or anyone else may think about the
 matter, the important thing is: "What does the Bible say?"
 God hates "hands that shed innocent blood." (Proverbs
 6:16-17). Who could be more innocent than an unborn
 child? Jesus said, "Thou shalt do no murder." (Matthew
 19:18). To murder is to take the life of another unlawfully.
 Regardless of the laws of our nation, it is against the law of
 God to intentionally take the life of another, and an unborn
 baby has life from conception. John the baptizer was called a
 "babe" while yet in his mother's womb (Luke 1:41).
 Christ was referred to as a "child" while yet in Mary's
 womb (Matthew 1:18). I recommend that you read Psalm
 139:13-16 and see how God considers that which is unborn
 and still in the mother's womb. We need to teach our
 young people what the Bible teaches about the sanctity of
 life and our responsibility to protect it—whether our's or
 someone else's—whether born or unborn! Our eternal des-
 tination depends upon our response to God's will—not to
 the will of the U. S. Supreme Court.

Thank You!

In Jesus' name we thank you. Thank you to all broth-
 ers and sisters in Christ. Jack and I are so appreciative
 of your prayers as he has been going thru all the radia-
 tion and chemo treatments. My sister Pat Ertle keeps
 us posted and lets us know you all are praying for
 Jack. He gets his first CT scan tomorrow the 20th of
 April to see how much the tumor has shrunk. We are
 praying it will be gone. Please know we love you all
 and ask to remain in your prayers. God Bless all of
 you.

AID FOR CHUUK

Dwayne and Lowell are collecting children's clothing
 (t-shirts and shorts) as well as medicine and oint-
 ments to send to Chuuk. Please make sure the oint-
 ments are small tubes and no liquids please. There
 will be a box in the east foyer for about two weeks.
